GOVERNOR'S COUNCIL ON ALCOHOLISM AND DRUG ABUSE
PO Box 345
TRENTON NJ 08625-0345

JON S. CORZINE
Governor

NEIL VAN ESS
Acting Chairman

November 2008

MARY LOU POWNER
Executive Director

To Our Veterans and Military Families:

The Governor's Council on Alcoholism and Drug Abuse (GCADA) is honored to dedicate this Resource Directory to all the brave men and women of New Jersey who have served in the US Armed Forces in defense of our freedom. The War on Terrorism, since its start in 2001, has relied upon our citizen soldiers, National Guard and Reserve Units, in addition to active service personnel.

The continuing personal and family sacrifices in service to our nation involve long periods of deployment to the war zone leaving many military families isolated and confused. All of these difficulties, as well as the combat experience itself, can cause both visible and invisible wounds for veterans and their families. In the past several years the GCADA saw one of its members, Sgt. Cynthia Carlucci, from the New Jersey National Guard, deployed to Afghanistan. Then there is Danielle Lanik, daughter of GCADA member Maryann Barkus, the designee from Department of Community Affairs, who shared first hand the sacrifices made by her family when her reservist husband was activated for active duty. He has served two tours of duty in Iraq.

Several GCADA members are veterans themselves and keenly aware of the price paid by service personnel and their families. In this current war, the impact we are seeing is different from past experiences in that our citizen soldier families live in our neighborhoods and their kids attend our schools. In an effort to respond to our military members and their families the GCADA formed a Veterans Committee in 2007 to explore ways the Council and the Alliance Prevention Network might assist these families, our neighbors.

This directory would not have been possible without the commitment of all the committee members and the determined work of GCADA staff, in particular Executive Director Mary Lou Powner and Nick Petrozzino, Senior Planner, who is a fellow Vietnam veteran. The Veteran's Committee acknowledges the genuine and long standing support given by Governor Jon Corzine to New Jersey's active, guard, reservist and veteran military service personnel and their families.

I have served on the GCADA for nearly two decades and have always been proud of the leadership it has given to its grassroots prevention network, the Alliance Program, since 1990. However, as a combat wounded Vietnam veteran and a National Inspector for the Military Order of Purple Heart, my pride in the GCADA has grown to a new level knowing that it cares enough to reach out and find a way to help today's heroes, our military service personnel and their families, who are paying the price for our nation's freedom, security and comfort.

Sincerely yours,

A handwritten signature in cursive script that reads "Neil Van Ess". The signature is written in dark ink and is positioned above the printed name.

The Army Information Line also celebrates its 25-year existence of providing information and referral services to those Soldiers and family members.

Army Family Team Building (AFTB)

Parents unfamiliar with the military are often overwhelmed by the lack of information that is available to them. The language is even foreign to them. To find answers the Army Family Team Building program is a way to connect parents to the military way of life one class at a time.

www.myarmylifetoo.com/

Army Family Action Plan (AFAP) is a year-round process that allows soldier and family the opportunity to let the Army know what is on one's mind and why one thinks something is not working. If you have a concern about something that affects your well-being, please submit an issue today!

Some examples of AFAP success stories:

1. Service member's Group Life Insurance increased
2. A Reserve Component family member ID card was established.
3. Family Separation Allowance was increased
4. Programs like Army Family Team Building (AFTB) and Better.

To submit an issue to the AFAP process, visit www.arfp.org to download an issue submission form or contact your Program Manager

Army Reserve Family Programs (Online)

The Army Reserve Family Program is designed to improve support for soldiers and their families during military separation. Soldiers have an obligation to ensure their families are prepared to endure an extended separation. Preparation and planning prior to mobilization is the necessary first step that must be taken to ensure family members have the resource to endure the separation. The Army Reserve Family Program has the educational and informational tools necessary to enhance awareness of the changes encountered in an effort to improve family readiness. This is the gateway to army reserve family program information that includes hot topics and groups that offer family support during separation.

www.arfp.org

Army Reserve Family Network

The Army reserve Family Network Programs launched a pilot project to connect Army Reserve families via Email. Separation from your Soldier is difficult enough. The army reserve family can experience another kind of separation, separation from others who understand. Join the Army Reserve Family Network Project and connect with others experiencing separation from their loved ones via email. Learn more at www.arfp.org/famnet

The Army Reserve Child & Youth Services (CYS) mission is to support the readiness and well-being of geographically dispersed families by reducing the conflict between parental responsibilities and mission requirements. CYS staff members provide an accessible and well-rounded program that successfully meets the developmental needs of all Army Reserve youth, supports the parent/care-giver during deployment, and provide peace of mind to the soldiers while they are separated from their loved ones. Families can apply for these programs at the National Association of Child Care Resource and Referral Agencies (NACCRRRA) website at www.naccrra.or/militaryprograms

Army reserve Child & Youth Services is involved with summer camps that unite Army Reserve children to provide them with the skills necessary to face the unique challenges they confront as military youth. Enrollment in the camps is completely free. CYS partners with the National Military Family Association to offer the Operation Purple camps – a free camp program open to all branches of the military. Registration begins in the spring at www.operstionpurple.org

CYS works with educators to help them understand the unique needs of Army reserve youth. Youth interested in receiving tools to assist in planning for college through virtual and telephonic trainings can register at www.arfp.org/cys/

Soldiers' and Sailors' Civil Relief Act of 1940

If you are a reserve service member called to active duty, you are protected by a law that can save you some legal problems and possible some money. Under the provisions of the Soldiers' and Sailors' Civil Relief Act of 1940 (SSCRA) you may qualify for reduced interest rate on mortgage payments and credit card debt, protection from eviction if your rent is \$1200 or less, and/or delay of all civil court actions such as bankruptcy, foreclosure or divorce proceedings. Although all service members receive some protection under the SSCRA, additional protections are available to reserve components called to active duty. **For more information contact you unit or installation legal assistance office.**

Army Reserve Financial Readiness Program

The Financial Readiness Program offers services to assist Soldiers and their families with their financial affairs. It is designated to educate military families of their rights as consumers. Financial planning within the Army Reserve is critical to all Soldiers, especially Troop Program Unit (TPU) Soldiers. Training opportunities are available to military families and can be coordinated by the AFTB/AFAP Program Manager upon request. Some of the topics available are: Budgeting, Financial Emergencies; Saving and Investing, Credit and Collection, Home Buying and Renting, Taxes, and Army Emergency Relief (AER) Loans/Grants.

How to Get Financial Readiness Assistance

1. When a Soldier or family member contacts the Army Reserve Family Programs Office for financial counseling or assistance, the AFTB/AFAP Program Manager will assist by completing a request

for financial assistance form for the Soldier or family member.

2. The Program Manager in coordination with their family program director will evaluate the request and determine what resources are available.

3. Upon determination, the program manager will contact the appropriate resource and link the Soldier or family member to that resource for assistance.

4. The program manager will follow-up with the Soldier or family member to ensure appropriate assistance was provided, and closes the request, notifies the director and files the request. www.arfp.org

HOUSING INFORMATION

Low Income Home Energy Assistance Program (LIHEAP)

And

Universal Service Fund (USF)

Fact Sheet

The Low Income Home Energy Assistance Program (LIHEAP) is designed to help low-income families and individuals meet home heating and medically necessary cooling costs. The application period is November 1st to April 30th. To apply for LIHEAP, contact the authorized local community action agency or community based organization in your area. A list of these agencies is enclosed. For persons age 60 or over, or who are disabled, applications may be received and returned by mail. Other households may apply by mail at the discretion of the local agency.

To be eligible for LIHEAP benefits, the applicant household must be responsible for home heating or cooling costs, either directly or included in the rent; and have gross income at or below 225% of the federal poverty level. Persons who live in public housing and/or receive rental assistance are not eligible unless they pay for their own heating/cooling costs directly to the fuel supplier. The amount of the LIHEAP heating benefit is determined by income, household size, fuel type, and heating region. This year, the medically necessary cooling assistance benefit is set at \$200.

The LIHEAP application is also an application for the Universal Service Fund (USF) Program. Therefore, you apply for two energy assistance programs at the same time. USF is a program created by the New Jersey Board of Public Utilities to help make natural gas and electric bills more affordable for low-income households. If you are eligible, USF can lower the amount you pay for gas and electricity. To be eligible, a household must meet the same income guidelines as LIHEAP and pay more than 3% of its annual gross income for electric, or more than 3% for natural gas. If a household has electric heat, it must spend more than 6% of its annual gross income on electricity to be eligible. Income eligibility for USF is at or below 175% of poverty. For more information about USF, call: 1-866-240-1347.

For further information on LIHEAP or to locate the nearest application agency, call 1-800-510-3102. Additional information about LIHEAP and USF, including an application, is also available at www.energyassistance.nj.gov.

Home Loans

VA Guaranteed Home Loan

Veterans can apply for a VA loan with any mortgage lender that participates in the VA home loan program. Veterans are exempt from down payments.

The loan is made by a lender, such as a mortgage company, savings and loan or bank. VA's guarantee on the loan protects the lender against loss if the payments are not made, and is intended to encourage lenders to offer veterans loans with more favorable terms. The amount of guaranty on the loan depends on the loan amount and whether the veteran used some entitlement previously. With the current maximum guarantee, a veteran who hasn't previously used the benefit may be able to obtain a VA loan up to \$240,000 depending on the borrower's income level and the appraised value of the property. The local VA office can provide more details on guaranty and entitlement amounts.

Note: Although the veteran may be approved for a VA home loan guarantee, the veteran still needs to have a good credit rating to obtain a loan from a lending institution, such as a bank or credit union. Contact State Veterans Service Offices listed in appendix A for more information on loans

LWYW homebuyer program (Live Where You Work)

The LWYW program is a home mortgage incentive program that provides low-interest mortgage loans to homebuyers purchasing homes in towns where they are employed. The goal of LWYW is to build stronger communities by promoting homeownership and encouraging people to live closer to their jobs. This, in turn, will reduce the need for cars and increase the use of alternative transportation such as walking, biking and public transit.

If you would like to buy a house in the town where you currently work, then LWYW might be right for you. The program helps these families by offering a second mortgage for down payment and/or closing costs up to 4% of the first mortgage.

The definition of resident is the same for the property tax exemption and deduction. It is the legal domicile within the state. Seasonal or temporary residence in the state is not considered being a resident of New Jersey. Absence from the state for a period of 12 months shall be sufficient evidence of abandonment of domicile. The burden of establishing legal domicile in the state is the claimant's burden.

LEGAL ASSISTANCE

Military Legal Assistance Program

New Jersey Bar Association:

The New Jersey State Bar Association (NJSBA) through its Military Law and Veterans' Affairs Committee, in conjunction with McCarter & English, LLP has established the Military Legal Assistance Program, a pro-bono - i.e., free - program to provide assistance to New Jersey residents who have served overseas as active duties members of reserve components of the armed forces after September 11, 2001.

Many returning veterans have been adversely affected by reason of their status, change of status, or long deployment. It is anticipated there is a need for legal assistance for these military personnel in civil matters. The program can offer assistance in Family Law, Employment Law and Debtor-Creditor Law. The program will refer members of the military who contact the NJSBA to volunteers qualified to assist with their specific need. Volunteers who accept the case must agree to handle such case from inception to resolution without compensation or reimbursement for expenses.

Soldiers' and Sailors' Civil Relief Act of 1940

Under the provisions of the Soldiers' and Sailors' Civil Relief Act of 1940 (SSCRA) you may qualify for reduced interest rate on mortgage payments and credit card debt, protection from eviction if your rent is \$1200 or less, and/or delay of all civil

court actions such as bankruptcy, foreclosure or divorce proceedings. Although all service members receive some protection under the SSCRA, additional protections are available to reserve components called to active duty. **For more information contact your unit or installation legal assistance office.**

EMPLOYMENT AND TRAINING SERVICES

Uniformed Services Employment and Reemployment Rights Act (USERRA)

USERRA replaced the Veterans' Reemployment Rights (VRR.)

USERRA guarantees reemployed persons pension plan benefits that accrued during military service, regardless of whether the plan is a defined benefit plan or a defined contribution plan.

USERRA provides health benefits continuation for service members and their families during military service for up to 18 months.

USERRA is enforced by Department of Labor's Veterans' Employment and Training Service (VETS).

Eligibility - The Act applies to persons who perform duty, voluntarily or involuntary, in the Army, Navy, Marine Corps, Air Force, Coast Guard, and Public Health Service commissioned corps, as well as the reserves of each. Federal training or service in the Army National Guard and Air National Guard is also included. Uniformed service includes active duty, active duty for training, inactive duty training (such as drills), and initial active duty training. USERRA covers all employees except those serving in positions where there is "no reasonable expectation that employment will continue indefinitely or for a significant period" i.e. seasonal work.

Basic Provisions/Requirements - Service members returning from a period of service in the uniformed services must meet five eligibility criteria to be covered by USERRA:

1. The person must have held a civilian job;
2. The person must have given notice to the employer that he or she was leaving the job for service in the uniformed services;
3. The period of service must not have exceeded five years;
4. The person must have been released from service under honorable conditions; and
5. The person must have reported back to the civilian job in a timely manner or have submitted a timely application for reemployment.

USERRA establishes a 5-year cumulative total on military service with a single employer, with certain exceptions allowed for call-ups

during emergencies, for reserve drills and annually scheduled active duty for training, etc. USERRA also allows an employee to complete an initial period of active duty that exceeds 5 years, not including reenlistments. Under USERRA, restoration rights are based on the duration of military service rather than the type of military duty performed, e.g., active duty for training, inactive duty, etc.

Time limits for returning to work under USERRA, with the exception of fitness-for-service examinations, depend upon the duration of a person's military service. The applicable time limits are as follows:

Less than 31 days service: By the beginning of the first regularly scheduled work period after the end of the calendar day of duty plus time required to return home safely. If this is impossible or unreasonable, then as soon as possible.

31 to 180 days: Application for reemployment must be submitted no later than 14 days after completion of a person's service. If this is impossible or unreasonable through no fault of the person, then as soon as possible.

181 days or more: Application for reemployment must be submitted no later than 90 days after completion of a person's military service.

Service-connected injury or illness: Reporting or application deadlines are extended for up to two years for persons who are hospitalized or convalescing.

Veterans' Employment and Training Service (VETS)

The mission of the Veterans' Employment and Training Service (VETS) is to provide veterans and transitioning service members with the resources and services to succeed in the 21st century workforce by maximizing their employment opportunities, protecting

their employment rights, and by meeting labor-market demands with qualified veterans. Additionally, there are supportive services provided to help make the veteran employable.

Employment Services for Veterans

The U.S. Department of Labor, Veterans' Employment and Training Service (VETS) offers employment and training services to eligible veterans through a non-competitive Jobs for Veterans State Grants Programs Under this grant program, funds are allocated to State Workforce Agencies in direct proportion to the number of veterans seeking employment within their state. The grants support two principal staff positions:

- Disabled Veterans' Outreach Program Specialists (DVOP)
- Local Veterans' Employment Representatives (LVER)

This grant provides funds to exclusively serve veterans, other eligible persons, transitioning service members, their spouses and, indirectly employers. The grant also gives the State the flexibility to determine the most effective and efficient distribution of their staff resources based upon the distinct roles and responsibilities of the two positions.

DVOP and LVER staff provide services to all veterans that Title 38 indicates are eligible for their services, their efforts are concentrated according to their respective roles and responsibilities, on outreach and the provision and facilitation of direct client services to those who have been identified as most in need of intensive employment and training assistance. The DVOP and LVER staff, through outreach with employers, develop increased hiring opportunities within the local work force by raising the awareness of employers of the availability and the benefit of hiring veterans.

Disabled Veterans' Outreach Program Specialists

Disabled Veterans Outreach Program (DVOP) specialists provide intensive services to meet the employment needs of disabled veterans and other eligible veterans. The maximum emphasis is directed toward serving those who are economically or educationally disadvantaged, including homeless veterans and veterans with barriers to employment.

DVOP specialists are actively involved in outreach efforts to increase program participation among those with the greatest barriers to employment, which may include but should not be limited to: outplacement in Department of Veterans Affairs (VA) Vocational Rehabilitation and Employment Program*offices; VA Medical Centers; routine site visits to Veterans' Service Organization meetings; Native American Trust Territories; Military installations; and other areas of known concentrations of veterans or transitioning service members.

The case management approach, taught by the National Veterans' Training Institute, is generally accepted as the method to use when providing vocational guidance or related services to eligible veterans identified as needing intensive services.

Local Veterans' Employment Representatives

Local Veterans' Employment Representatives (LVER) conduct outreach to employers and engage in advocacy efforts with hiring executives to increase employment opportunities for veterans to encourage the hiring of disabled veterans, and generally assist veterans to gain and retain employment. LVER & staff conduct seminars for employers and job search workshops for veterans seeking employment, and facilitate priority of service in regard to employment, training, and placement services furnished to veterans by all staff of the employment service delivery system.

To meet the specific needs of veterans, particularly veterans with barriers to employment, the DVOP and LVER staff are thoroughly familiar with the full range of job development services and training programs available at the State Workforce Agency One-Stop Career Centers, Department of Veterans Affairs Vocational Rehabilitation and Employment Program locations.

Eligible Applicants

Applications for funds under the Jobs for Veterans State Grants Program will be accepted only from the designated administrative entity that operates the employment service delivery system within the State.

For more information regarding Employment Services for Veterans and VETS' other programs and services, visit our website at: www.dol.gov/vets.

Veterans Civil Service Benefit

The New Jersey Department of Military and Veterans Affairs is the agency that determines veteran preference for hiring in New Jersey civil service and veterans status for New Jersey civil service pension plans. War period veterans who pass the civil service examinations are given absolute preference over non-veterans when applying for state, county or municipal employment. Absolute preference is not extended to promotions, but if a veteran ranks highest on a promotional certification, a non-veteran cannot be offered the appointment before the veteran. Veterans with service connected disabilities (at least 10 percent) who pass the civil service examinations are given preference over other veterans and non-veterans. Eligibility requirements apply, e.g., specific time periods of active duty, discharge status etc. Spouses, widows and parents of deceased or disabled veterans are eligible under certain circumstances. For information call Veterans Benefits Bureau at 609-530-6954.

There are additional retirement and pension benefits offered to veterans who are members of the Public Employees' Retirement System (PERS). For more information call the New Jersey Division of Pension and Benefits at 609-292-7524

Helmets to Hardhats

The New Jersey State Building and Construction Trades Council program (NJ H2H) is designed to help transitioning military personnel find careers in the building and construction industry. The program seeks to help military members find a career in one of 15 affiliated trades, such as carpenters, electricians, painters etc. Unions have been proactive in placing Veterans in good paying, skilled positions through their Helmets to Hardhats and recently rolled out Hire a Hero programs. For registration and information visit online at www.njbctc.org/h2h or call 732-499-7295

Vet Career Connect

Vet Career Connect has been organized to connect veterans, members of the New Jersey National Guard, Reservists and their spouses-

es, with a career that would allow them to reach their highest potential. Vet Career Connect is designed to match specific abilities, drives and interests with a job/career requiring those specific abilities. **Vet Career Connect is free service to all Veterans, Veteran spouses, and Parents and children of veterans.** It is an opportunity to complete a personality profile that has been completed by over 2.5 Million people throughout the world, and to receive private feedback (Individual Development Guide) on the results as to how to develop towards a job or career. With the Veteran's permission, the test results will be placed on a database, along with military records, school history, resume, etc., to be viewed by hundreds or potentially thousands of potential employers. PTSD (Post Traumatic Stress Disorder) WHAT IS IT ?

After a trauma or life threatening event it is common to have upsetting memories of what happened, to have trouble sleeping, to feel jumpy, or to lose interest in things you used to enjoy. For some people these reactions do not go away on their own, or may even get worse over time. These people may have **Posttraumatic Stress Disorder (PTSD)**.

What can I do if I think I have PTSD?

If you think you have PTSD, it's important to get treatment. Treatment can work, and early treatment may help reduce long-term symptoms.

If you think you have PTSD: Contact your local Vet Center

Rocking Horse Rehab

Rocking Horse Rehab is a private rehabilitation and family wellness center. It is the only center in the US to offer a unique combination of services which includes Equine Assisted Therapies, traditional speech, physical and occupational therapy, and other alternative therapeutic programs. One program in particular Equine Facilitated Psychotherapy works with individuals dealing with emotional and behavioral problems and those struggling with social skills and attention issues. How one cares for a horse mirrors one's own self care. Working with a free horse can enhance self awareness and personal growth, as well as providing calming relief and can reduce high blood pressure.

The program offers both riding and ground work with horses in its relationship building approach. Individual and group sessions are available.
